

PBL Sponsor is a five tier program that will give benefits to both businesses and/or individuals who choose to sponsor PBL by making their products, services or jobs and internships known to our members and also provide the benefit to our students of being able to network with those businesses or individuals. All items in the tier program are stackable with the exception of events being sponsored. For example, if one business chooses to be a bronze sponsor they will receive all the benefits listed for bronze and be able to provide a list of three events they would prefer to sponsor but we will pick their top choice if it is available, if it is not we will pick their next choice. If one business chooses to be a platinum sponsor they will receive everything in the platinum sponsor level and levels below it and will provide twelve event choices in preference because they would have four events they sponsored. At the Awards of Excellence Program when the event is presented that has a sponsor, it will be announced that this event is sponsored by "businesses or individual name" and the award will also have the name of who sponsored it listed.
